You fool
Presi-dent?

Presi-dent!
What's the mean-ing of this!?

I am not...
the presi-dent

I am the Empress.
The Student Council Empress,
Akuouji Etsu.
So...
What is your business?
Why is the Astronomy Club being merged with another club?!
Hm.
Menzu
Empress
Small clubs are like poisonous insects, eating up the school's club budget
So, Astronomy club?
Isn't it reasonable to gather all the poisonous insects in one place?
Be satisfied with being the Queen of the poison,
Astronomy Club
Urgh...
The Astronomy Club
Current number of members: one.
Has had no achievements in the past year
Confirmed that game systems and snacks have been brought into the club room
Confirmed that the club budget has been used for personal expenses
With this report will you still ask 'why the Astronomy Club' I wonder?

Gah, damn it
I couldn't prevent the club merging.
Bzz Bzz
That midget Student Council Empress didn't have to go that far
Though it's true the club has no achievements.
I'm mad that I can't keep using the club room however I want

Radish

Uhhh...
What's going on?
And who is that...?

Fufun you can't tell by looking, you simpleton?
I am calling out the Demon Prince Amon
With a radish?
That's a pretty cheap Prince
Um... What are you doing to my club room?
Hm?
I don't really know but don't you normally need meat or blood or some-thing?
Hmm...
What?
Is a radish wrong?
But it's delicious
Really?!
It's just your taste?!
Hm?
It's my second day
I don't care!
But isn't it like raw liver?
Heeey!
Why are you taking off your panties?!
Blood, you say?
Strip
Just put them on
Okay
Squeeze

Someone from the Occult Club that got moved?
Him?
Just who...
...are you?
So..
Fufun
And you dragged in a chair like that
Me?
My name cannot be pronounced in your language
Let's see
You may call me "The Meraru Disaster" for now

Hey!
Shut up, Michiko
Tremble
Tremble
Oh! Hey! Wait! Don't look at my student ID!
Hey!
That's completely pronounceable
Class 2-H, number 6, Oka Michiko
The same year, huh?
And who might you be?!
And..

Seriously?!
The evil demon king ruling over space ?!
No, Akuno Mao from the Astronomy Club
It's Mao
Akuno Mao
Huh?
Me?
I'm the president of the Astronomy Club.

Sigh.
I'm really worried about the future...
Let's just clean up the club room for now
Maoh
I have an idea.
I told you, it's Mao
What is it, Michiko?
Don't call me Michiko!
How about we call the combined Astronomy Club and Occult Research Club the "Astrology Club"?
Michiko, shut up and help me tidy the club room.

Who is this?!
Oh.
Good day

There should have been a notice from the student council.
I guess you haven't heard.

Notice?
Um.
Hey...
Oh?
Who might you be?
Hey
Huh?
Don't stand in front of the door, Maoh.
You're in the way
Oh, it's you, Michiko
Don't call me Michiko
Oh?
Who is that?
Hohoo
They did say another club would merge with us
You knew Michiko?
Rustle
Yeah, yesterday after you left someone from the student council came by with a document
Oh here it is

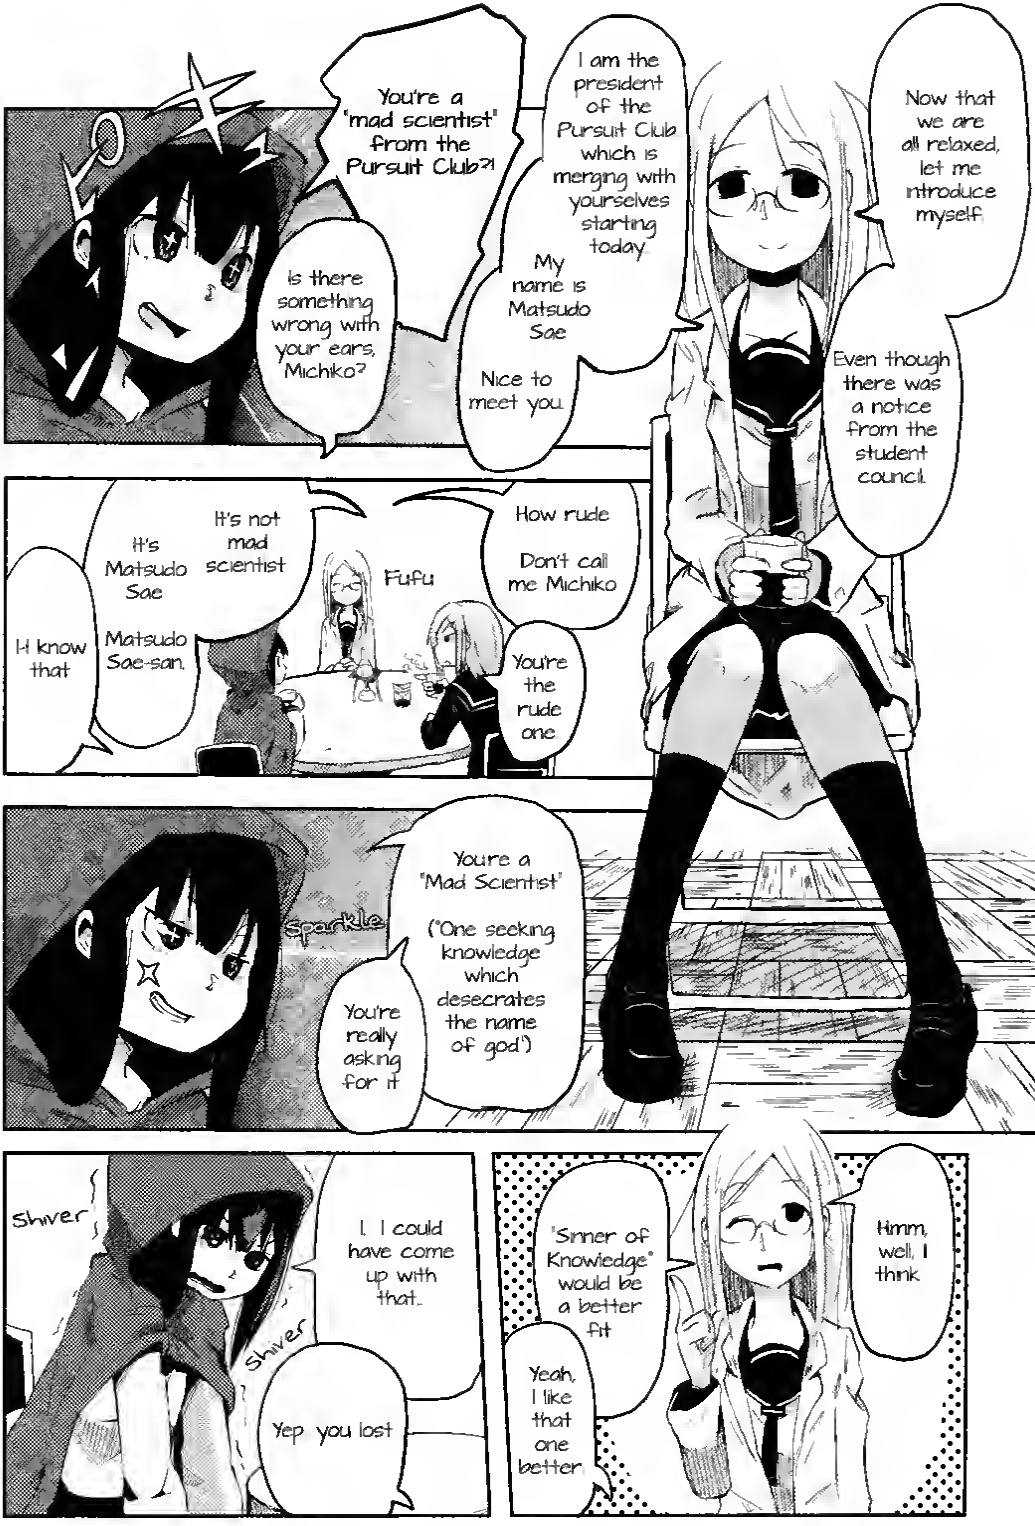
I've never had it like this before
Heheh, it's pretty good



You're a "mad scientist" from the Pursuit Club?!
Is there something wrong with your ears, Michiko?
I am the president of the Pursuit Club which is merging with yourselves starting today.
My name is Matsudo Sae
Nice to meet you.
Now that we are all relaxed, let me introduce myself.
Even though there was a notice from the student council.
How rude
Don't call me Michiko
Fufu
It's not mad scientist
It's Matsudo Sae
I-I know that
Matsudo Sae-san.
You're the rude one
Sparkle
You're a "Mad Scientist"
("One seeking knowledge which desecrates the name of god")
You're really asking for it
Shiver
Shiver
I, I could have come up with that..
Yep you lost
Hmm, well, I think
"Sinner of Knowledge" would be a better fit
Yeah, I like that one better.

N-Not really
What?
You're still depressed?
Mao-chan, huh?
Oh, I'm in my second year, Akuno Mao
And this black thing.
Ehem

Now, tell Sae-san.
It's all right

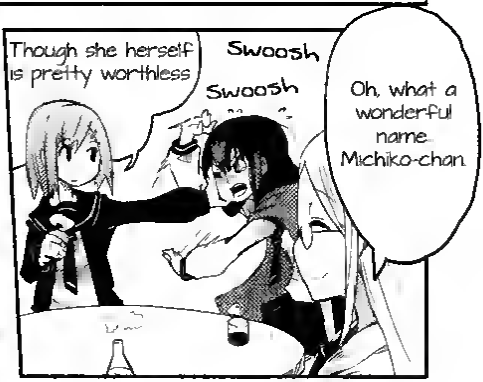
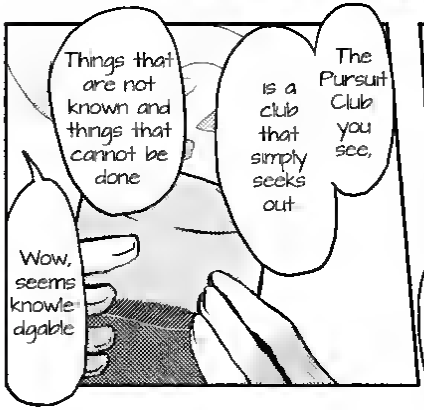
Heeeey!
Kukuku, bow down, you petty humans!
My true name is!

Oka Michiko
Nooooo not my full name!

Eh?
W-Well I work for Beelzebub and such.
Eheheh
Eh, that made you happy?



Though she herself is pretty worthless
Swoosh
Swoosh
Oh, what a wonderful name Michiko-chan



The Pursuit Club you see,
is a club that simply seeks out
Things that are not known and things that cannot be done
Wow, seems knowledgable

From the lab coat and beakers, I'm guessing it is similar to the science club?
By the way what exactly did the "Pursuit Club" do?
Hmm... fufu, it's a bit different

Let's see...
As far as what I know
You seem like a pretty amazing person
Huh.
That's not true
Rather, the fact that there are many things I don't know...
is why I search.
spray
The fact that Mao-chan joined the Astronomy Club in her first year because she was interested in the president (a hot guy) is about all, you know?
Hi.
How do you...
cough
cough
And other things that I know about Mao-chan...
Lately you've been hot for the Student Council Empress's assistant Menzu-kun, and have been keeping an imaginary daily exchange diary (with you playing both roles) is about all
Hey!?
unfufu
He calls you 'Mao-Mao', in the diary (which you play both roles of), right?
I'll kill you!

Pi
Oh
Another thing I happen to know
Gross...
I don't want to hear that from you!
Whoa....
Bang
Heeeey!
During middle school

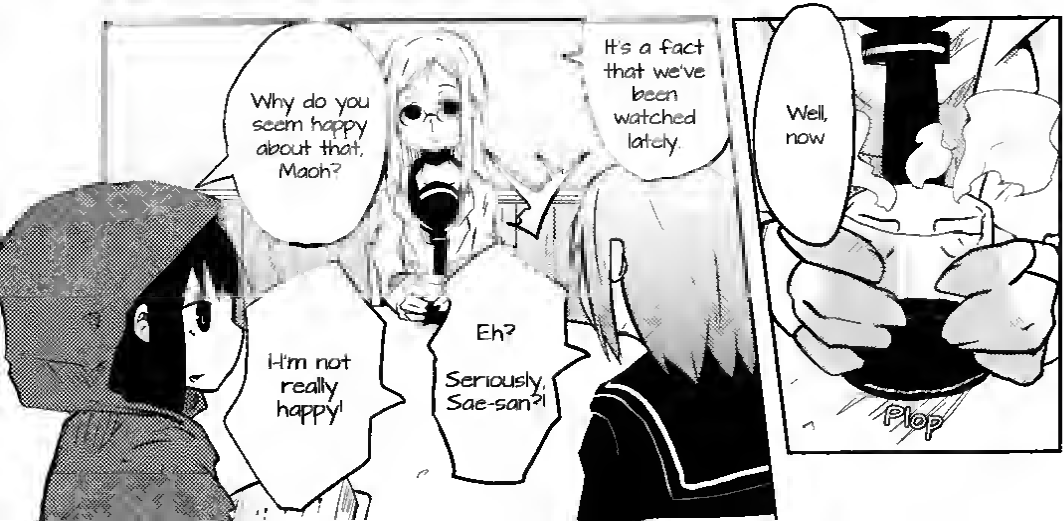
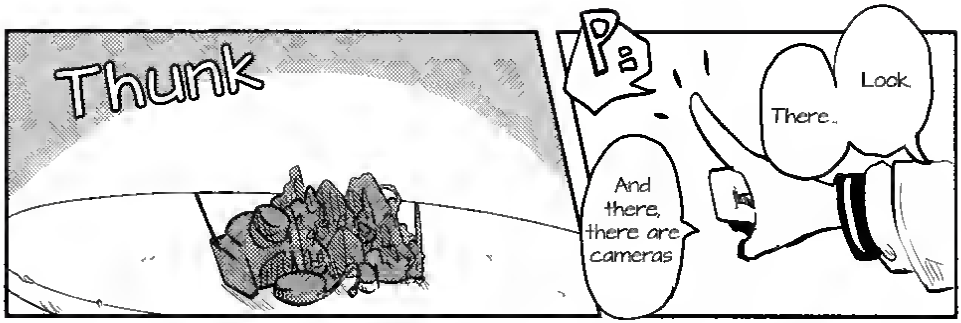
You're paranoid, huh.
You shouldn't say crazy sounding things
I don't want to hear that from you, you crazy occult girl
Woah.

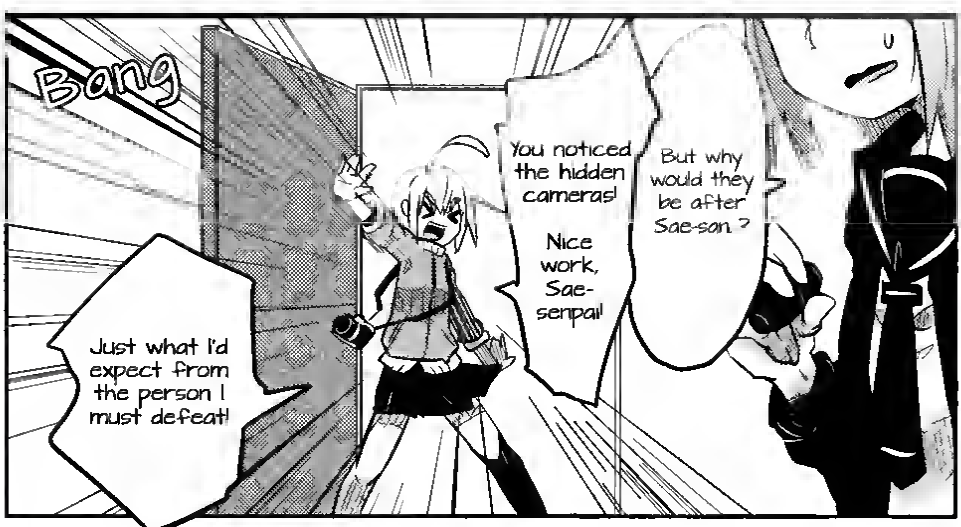


Why do you seem happy about that, Maoh?
It's a fact that we've been watched lately
Well, now
I-I'm not really happy!
Eh?
Seriously, Sae-san?!
Plop



Thunk
Look. There..
And there, there are cameras

Whoa, scary
Why are there so many hidden cameras?
What is this?
Hmmm.
I am probably the target
See look, Maoh.
They weren't after you.
Giggle
Shut up, Michiko



Bang
You noticed the hidden cameras!
Nice work, Sae-senpai!
But why would they be after Sae-san?
Just what I'd expect from the person I must defeat!

Whoa?!
Who are you?
Pardon the late introduction.
I'm Hotosho Aiko from class 1-K!
I will defeat Sae-senpai!
And take over this Astrology Pursuit Club!
Step
That stupid midget Empress...
Doing something unneeded...
Very good
I made a promise with the Student Council Empress with that condition!
Snap
A new club?
What kind of club?
Another annoyance...
Uh...
Whatever just leave...
If I take over this club, I can start a new club!
No!
I cannot do that!

You don't need a reason to disband that kind of club, Empress...
The main activity would be fabricating news!
The Fabrication Club!
A new student starting up a club is a wonderful thing.
But why am I the target?
You see!
Manipulate
Condense
Select
Process
Disperse
Transmit
And rule over it!
The data at this school...
I want to
Summarise
Know
For that purpose...

The one who commands all the data at this school
Sae-senpai, who is also known as the "Akashic Record"!
You are a large wall!
And so!
If I can defeat you, taking over this club will be nothing!
Huh?
We were just called nothing, right?

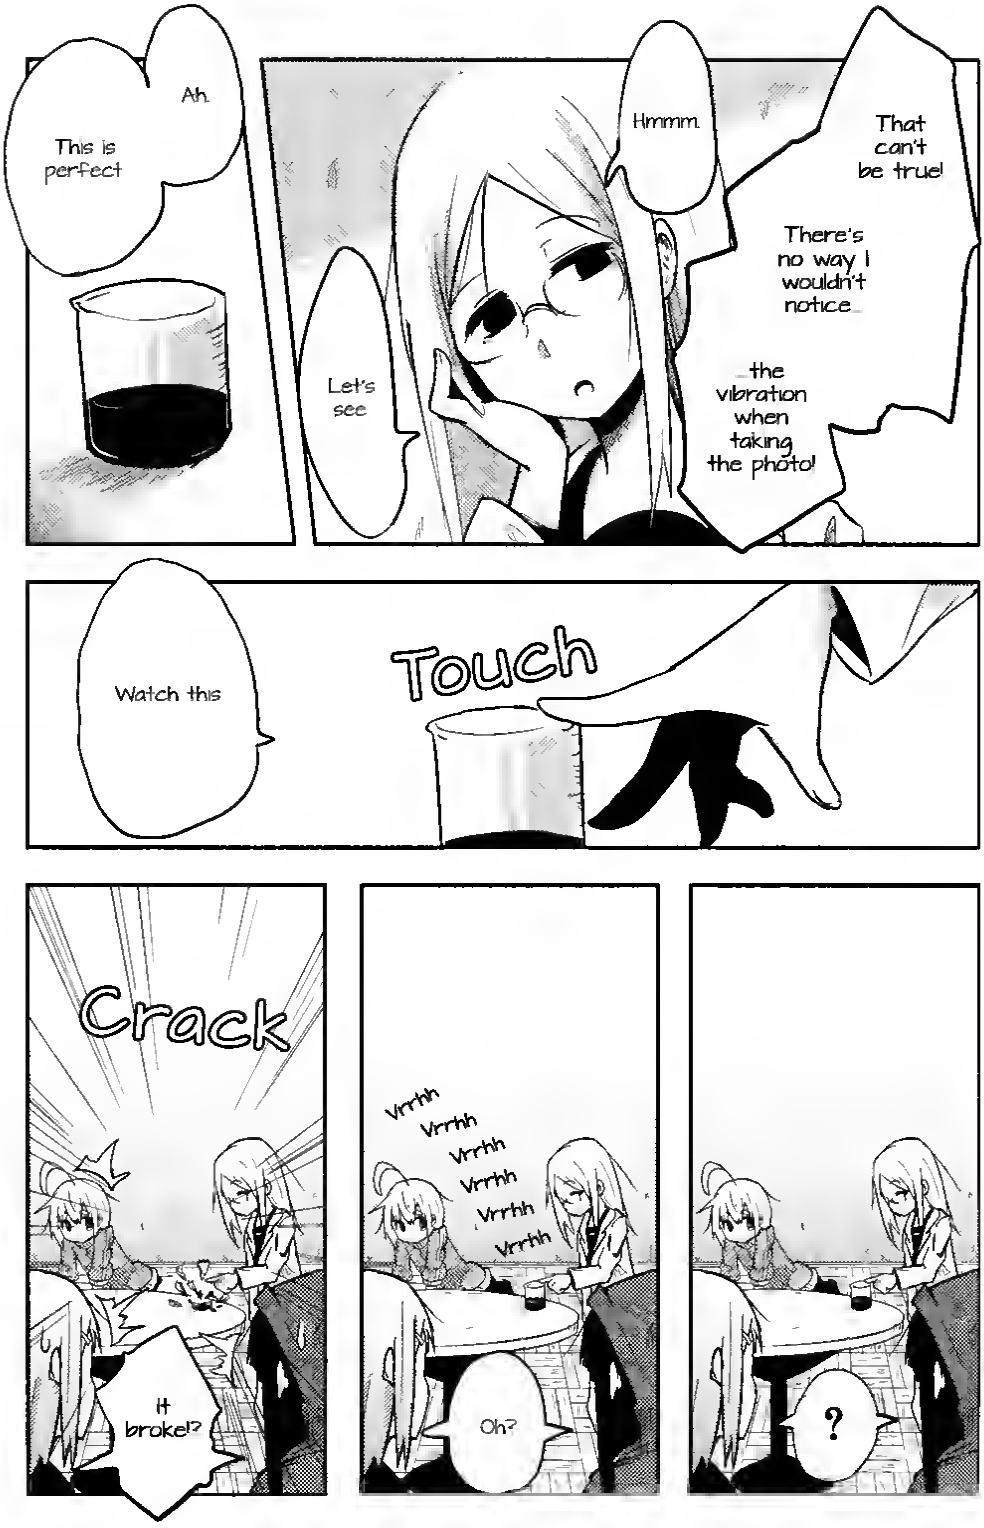
I also have another name, "Meraru's-
Yeah, this conversation is getting annoying so just shut up, Michiko
Whoa, that's just mean.
I will fabricate images of Sae-senpai in embarrassing situations and distribute them!
And so!
I'll make you lose your social standing!
Oh my, I think you're over-rating me
I simply pursue things I want to know
No questions!
Snap
I'll take that second name.
"Akashic Record"
Prepare yourself!

S-Sae-senpai!
Once more!
Oh my
Heh heh heh
Now the name of 'Akashic Record' will be mine
Oh my
Huh?
It's out of focus?
Depressed
Oh my
It's out of focus again
Snap
There's no way!
For two photos in a row to be out-of-focus..
With my skill in photography plus the hand shaking correction on my camera...
It's against the school rules for me to be photographed
So I am subtly vibrating my body so as to be out-of-focus
School rules.. Just who is she..?
I apologise



Ah.
This is perfect
Let's see
Hmmm
That can't be true!
There's no way I wouldn't notice...

Sae-senpai?
That is not true Aiko-chan.
That is something only you can do.
Could you show me... the fruits of that craft?

I'd like to get a new camera.
When I first entered the school,

There are that many reporting clubs?
By the way
Why aren't you in the Reporting Club Aiko?
Oh...
The Reporting Club...?

TL Note: Zippo: A nick-name for the 10th Reporting Club. Probably from "Ji" (for 10) and "pou" (or "hou" for reporting) combined to make Jippou. Which just happens to also be how the brand name Zippo is written in Japanese.
